June 7, 2004 -- FOR IMMEDIATE RELEASE

iip❖group has become authorized as a Linksys Partner Connection Program member. As an authorized partner, **iip❖group** now has access to an array of tools to help our clients select the most appropriate networking equipment for their needs. With the rapid changes in healthcare technology products, having access to the latest information on both shipping on planned products is essential.

In sharp contrast to most other industries that have computerized their core business functions very aggressively, healthcare has lagged behind. While some physicians' offices have introduced computerized scheduling and billing, virtually none have made even tentative steps towards computerizing their clinical information. The **iip❖group's** vision points to integrated healthcare information solutions supported by the highest quality service.

About iip❖group

iip❖group was founded to provide healthcare technology products, services, and consulting to medical practices throughout the United States. Our vision is for integrated healthcare information solutions to support the highest quality service in small- and medium-sized medical practices. For more information, visit the **iip❖group** web site at www.iip-gropu.com.

About Linksys

Founded in 1988, Linksys, a Division of Cisco Systems Inc. (NASDAQ: CSCO) is the global leader in Wireless and Ethernet networking for both consumer and SOHO users. Linksys is dedicated to making networking easy and affordable for its customers, offering innovative, award-winning products that seamlessly integrate with a variety of devices and applications. Linksys provides 24/7 Grade "A" product support to all its customers. For more information, visit the Linksys web site at www.linksys.com.
